

## THE KEARSARGE WRECK.

Arrival of the Crew of the Famous Old Battle Ship.

## THE STORY OF ADMIRAL STANTON

Detailing the Disaster—Only One Life Lost, Though There Were Over Two Hundred on Board—The Ship Cannot be Saved—Stove In and Half Filled With Water—No Knowledge as to the Responsibility Given to the Public.

New York, Feb. 21.—The steamer City of Para, having on board the officers and crew of the famous old war ship Kearsarge, which now lies on Roncador reef, arrived off quarantine today from Colon. As the City of Para reached quarantine the crew of the Kearsarge could be seen on deck. She was boarded by Dr. Jenkins, the health officer, who with a representative of the Associated Press was the first to extend congratulations to the officers of the Kearsarge.

The voyage from Colon was a pleasant one for winter, and the City of Para made an excellent voyage.

Acting Admiral Oscar F. Stanton, who was first seen by the Associated Press reporter, gave the following account of the wreck of his flag ship:

"The accident occurred about 2 o'clock on the afternoon of February 2nd," said Admiral Stanton. "A stiff north-easterly wind was blowing, and there was a considerable sea. The Kearsarge struck rather lightly at first, and then there was a heavy jar and a crash when the ship went up high and dry on the reef."

"We remained on board the Kearsarge that night, and were taken ashore the next day. The City of Para did not come until Saturday February 10, about a week from the time we went ashore on Roncador Island. All hands were taken off the Kearsarge on the catamaran boat, after working all night in order to get things ready for our departure from our ship. We sent the catamaran boat ashore about daylight."

"After we reached the shore we gathered together some old sails, awning and duck with which we rigged up a tent to shelter us. The weather was quite warm enough to make such a tent comfortable. To increase the small supply of water we were enabled to carry with us from the Kearsarge, we dug a well. We also had what provisions we could save from the ship."

"We had built rafts during the night and early Saturday morning in order to transport what things we could take away from the ship, together with our eight days' supply of water, which permitted a supply of one pint a day for each man."

"There are 21 officers and 181 men, making 202 in all, and we are all well. "Anderson Robbins, one of the men, was drowned shortly after the wreck. The ship was rapidly filling with water, and Robbins was swimming for the reef, but he could not make it and was drowned."

"After we had gotten safely ashore Lieutenant Brinnard and seven men were dispatched in a life boat to Old Providence in order to secure assistance. The City of Para, which he chartered, did not reach us until 10 o'clock on the 10th."

In answer to a question put to him by the Associated Press representative as to the cause of the accident, Admiral Stanton said: "I cannot say anything in regard to the matter of responsibility for the wreck of the Kearsarge, and cannot express any opinion as to whether the wreck of the ship was due to carelessness or defective instruments or to any one on board the Kearsarge. I presume there will be a court of inquiry to investigate into all this, when these facts will be fully developed."

In answer to a question as to the possibility of raising and saving the Kearsarge Admiral Stanton said: "There is no possible chance of saving her. She was all stove in when she struck the reef, and when we left her she was almost full of water. Even if this were not the case the weather is such down there that it is very difficult to work on account of the intense heat and blistering sun."

## ANOTHER TITLE PURCHASE.

This Time the American Heiress is a California Belle.

SAN FRANCISCO, CAL., Feb. 21.—Prince Poniatowski, a young Italian nobleman, who arrived in New York a week ago last Sunday and who has been in this city three days, last night admitted his engagement to Miss Maude Bourke, a young society woman, who is a niece and prospective heiress of Horace Carpenter, an Oakland millionaire. Poniatowski stated that in about two weeks he and Miss Bourke and General Carpenter would proceed to New York to join Miss Bourke's mother, Mrs. J. F. Tichenor, and the wedding would occur in New York.

## A Sweeping Advance in Mercantile Risks.

CHICAGO, Feb. 21.—The Chicago Fire Underwriters' Association, at last night's meeting, decided upon a sweeping advance of mercantile risks of 25 per cent. It is estimated that the premium on the risks affected by the increase amount to \$1,500,000, consequently the insurance companies will put into their coffers an extra \$375,000 by this action, which will be divided among 150 companies.

## Small Pox on a Train.

CHICAGO, Feb. 21.—An incoming immigrant train on the Pan-Handle road brought to the Union station today the dead body of an infant. Death is supposed to have resulted from small pox, and the city health department was notified and took charge of the train. The passengers were quarantined until they and their baggage were thoroughly fumigated.

## IMPORTANT RESULTS

May Follow the Decision—A Case Which Will Affect the Colonial Divorce Cases.

WASHINGTON, D. C., Feb. 21.—It is said by the legal authorities about the United States supreme court that the status of the contention between Prince and Princess Colonna may be materially affected by a case soon to be heard before the court. The differences between the prince and princess have recently attracted attention on both sides of the Atlantic and have been intensified by the prince's escape with her children from France to this country, in spite of a decree in the French courts giving the custody of the children to the prince. The case soon to be heard in the United States supreme court is as to the extent to which the judgment of a French court can be enforced in the United States. The case involves a judgment for about \$4,000 given by the French courts against Hilton, Hughes & Co., of New York. The French judgment is being contested on the ground that the case should have been tried in this country, where the American defendants could have received a full and fair jury hearing. It has also been urged that the French courts give no recognition to the decrees or judgments of American courts, and if an American wants redress in France he must go to France to get it.

Should the supreme court sustain the French judgment it is said that the precedent will be established governing the Colonna case and other international litigations.

## DIED OF GLANDERS.

Peculiar Death of the Wife of a San Francisco Drayman.

SAN FRANCISCO, Feb. 21.—Mrs. Sophia Beresford, wife of a prosperous drayman, died last night of glanders. Four weeks ago the woman's husband purchased a diseased horse for the family to drive. A few days later, while Mrs. Beresford was standing near the horse's head the animal sneezed in her face. Soon afterward she was stricken with chills and pains and swelling in the forehead. She finally became so bad that she was removed to the hospital and there the true nature of the disease was discovered. The whole upper portion of her face was eaten away by the dread disease. The husband and children have also been exposed and their condition is being closely watched.

The health authorities killed the horse and will cause the arrest of the traders who sold it to Beresford at a price that was ridiculously low.

## LOST IN THE SNOW.

Five Woodchoppers Meet a Terrible Fate in Nevada.

VERMONT, N. V., Feb. 21.—About noon Monday five woodchoppers were caught in a snow slide in the mountains five miles from here. Nothing was known of it until a man passing yesterday afternoon had his attention attracted by groans, and on investigation found Edward Ede, pinned in the snow, where he had lain over twenty-four hours in a terrific wind and snowstorm. His head was caught between two timbers and pierced by a protruding nail. He was conscious when taken out, and hopes are entertained for his recovery. The names of the other unfortunate are: Tom Thrasher, M. S. Wheeler, Michael Warner and Leonard Nelson, all of Reno, Nevada. They are supposed to be dead.

It is thought that they will exonerate the railroad company.

Ellis received injuries to his spine which made him a cripple for life. He sued for \$50,000.

## Congressmen Arrested.

CLEVELAND, O., Feb. 21.—C. C. Wilson, a deputy sergeant at arms of the house of representatives, arrived here today from Washington. He was sent to take into custody Congressman Tom L. Johnson and W. J. White, who, it is said, are both absent from the house without leave. Mr. Johnson is at present confined to his bed at the Weddell house suffering from a severe cold. Congressman White has not yet been served with the summons.

## THE BRAZILIAN WAR.

The Armado Batteries Restored—American Prestige Very High.

[Copyrighted, 1891, by the Associated Press.]

Rio De Janeiro, Feb. 21.—The Armado batteries which were destroyed by the rebels during the battle of February 9, when the government lost, it now appears, over 700 men, have been restored. During the continued disability of Admiral Da Gama, Alexandrino de Alencar has been in command while awaiting the return of Admiral De Mello, who is still said to have reached here on board the Republica. The rebel force is now said to have been reduced to five hundred men, and a number of these are more or less severely wounded. It is not believed to be possible for the rebels to undertake any further operations on land until the fleet is strongly reinforced.

News from the Nictheroy is expected hourly, and concerning the rest of President Peixoto's fleet there are two stories in circulation. According to one, the torpedo fleet is in bad shape and there is little or no chance of a naval battle being fought. The second story has it that the torpedo fleet is moving south in order to join the Nictheroy and that news of an important nature will shortly be heard.

Reports from the south still seem to show gains for the rebels. American prestige, owing to the determined action of Admiral Deham, is now very high in Brazil.

## A BOMB AT LANCASTER.

Attempt to Blow Up a Bridge—Second Outrage in a Month.

LANCASTER, PA., Feb. 21.—An attempt was made last night to blow up the bridge over the Pennsylvania railroad. The instrument used was a bomb made of gas pipe, sections of which were found embedded in the superstructure of the bridge 25 feet from the point of the explosion. The bridge is not badly damaged, although the concussion smashed windows and broke open doors of neighboring houses and tore down telephone and electric light wires. Many people in the vicinity at first thought it was an earthquake and rushed from their homes panic stricken, but on recollecting that it was election night concluded that some one had fired off a cannon in celebration of the Republican victory.

There is great excitement over the affair, as it is only a month since a huge dynamite bomb was found under the foundation of a big four-story building adjoining the police station. The fuse had been lighted, but was defective and failed to explode the bomb.

## The Corbett-Jackson Fight.

LONDON, Feb. 21.—The Sportsman says it learns on the authority of one of the principals that Jackson and Corbett have no idea of attempting to settle their contest in the United States. They do not care to be badgered by the authorities as was the case in the Mitchell-Corbett match. The event is almost certain to be settled at the National Sporting Club in London.

The great domestic stand-by, Dr. Bull's Cough Syrup, is now recognized to be a family necessity. Keep it handy.

The INTELLIGENCER will give everybody an opportunity to secure a complete set of World's Fair Art Portfolios. Look out for our special offer in next Monday's paper.
